Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2019-20 educational progress for White Pine Academy. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Marianne Dege for assistance.

The AER is available for you to review electronically by visiting the following web site <https://bit.ly/3oHtCck>, or you may review a copy in the main office at your child's school.

For the 2019-20 school year, schools were identified using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has a student subgroup performing at the same level as the lowest 5% of all schools in the state. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no label is given.

White Pine Academy **has not** been given one of these labels.

White Pine Academy has a student achievement gap between the top 30% of highest achieving students and the bottom 30% of lowest achieving students across all tested subjects (mathematics, reading, science, social studies, and writing; as appropriate for the school grade levels tested). We continue to, vigilantly, work to address these student deficits by providing more intense instruction where there is a deficit. This instruction is provided through one on one teacher intervention, as well as, title one intervention.

State law requires that we also report additional information.
